Subject: Pelican Point Rock Products - M/049/011

I received a phone call from Tim Kruger (801) 949-7978. They have reassigned lease to Cable Mountain LLC (Steve Heaton). SITLA informed them to contact DOGM to see what was needed. I told him we needed a transfer (walked him through the web site to download the MR-TRL form). Also informed him we needed a new bond from Cable Mountain, LLC and it had to be adjusted to year 2010. Told him we were waiting on things from Pelican Point or Mt. Nebo Scientifics so the bond could be updated. Asked if they could do a bond rider with the existing bond. Told him, yes, the bonding company could do a rider changing the principal name and also change the surety amount on the same rider). He will get working on these things right away.

A copy of this message will be placed in the file M/049/011.
